

## IN LABOR'S REALM.

## Review of the Week in the Busy World of Industry.

Printers in Kansas receive an average of \$3.20 per day.

The city of Toronto, Can., has decided to pay laborers not less than \$2 a day.

For the last fiscal year the total output of all Illinois coal mines was 37,183,274 tons.

Actors' National Protective Union will meet in annual session in New York City on May 21.

The eight-hour law of Michigan has been declared valid in a recent decision by the supreme court of that state.

Every Saturday of the year is now a half-holiday with the bricklayers of Boston, Mass., according to the union rules.

Boston & Maine railroad baggage-men will ask the road management for a wage increase and reduction of hours in some cases.

Employers in the British cotton trade have conceded the 2½ per cent advance, which has been under consideration for some time past.

Fifteen new unions have been added to the Amalgamated Sheet Metal Workers' International Alliance since the first of the year.

A charter has been granted by the International Sheet Metal Workers' Union to the railroad shopmen of Minneapolis and St. Paul, Minn.

It is reported that the machinists throughout the country will attempt this year to establish an eight-hour work day in the machinery trades.

A Boston, Mass., Railroad Switchmen's Union is now being organized. The switchmen had a strong union in that city and vicinity some years ago.

Because the increase asked by St. Louis, Mo., carpenters was refused, they struck, and about 1,000 other men identified with the building trades went with them.

At Boston, Mass., six hundred carriage and wagon workers struck recently for an eight-hour day, a closed shop, and Saturday half-holiday during the summer.

It is reported that unless its employees line up to defeat the Two-cent Rate law recently passed in Ohio the Pennsylvania railroad will abolish its pension system.

Plans are under way at Minneapolis, Minn., for the formation of a consumers' league, the main object of which will be to combine the purchasing power of organized labor.

The grievance committees of the Brotherhood of Trainmen and Conductors of the Lehigh Valley railroad company will demand a ten-hour work-day instead of 12 hours.

The cash balance of the Illinois Mine Workers, on hand February 1, was \$929,937.12. The receipts for the year amounted to \$348,921.67, and the expenditure to \$207,610.24.

Since the per capita tax of the Boiler-makers and Iron Shipbuilders was increased from 25 to 50 cents a month, on January 1, there has been some discussion in several of the lodges.

At the last meeting of the Brotherhood of Railway Trainmen it was stated that the international union was going to build a home of its own, and that \$5000 had been set aside to start with.

Master Builders' Association of Fall River, Mass., has declared for the open shop. This action was decided upon after the carpenters had asked for a 50-cent daily increase in wages.

The Pennsylvania bureau of mining reports that 44 mine workers were killed in the Twelfth district, and 40 in the Thirteenth district last year. The 84 left 84 widows and 219 children.

Chicago, Ill., painters have won an important victory. They recently secured an increase of 5 cents an hour in wages, which in the aggregate means about \$2,500 a day to the members of the craft.

Because of the energetic attitude taken by organized labor in Santa Clara county, Cal., against employment of Mongolians, at least one-half of the Chinese and Japanese have already been discharged.

Chicago, Ill., lithographers are going to take up the pure food crusade. Unless certain manufacturers order labels for their food products which tell the truth, it is said the lithographers will not print them.

The Woman's Union Label League Club, at Chicago, Ill., has been disrupted by the marriage of 97 out of the original 100 members, and the club has returned the charter it received from the American Federation of Labor, one year ago.

President Samuel Gompers, of the American Federation of Labor, has increased the scope of the Federation Committee of Legislation at Washington, D. C., by having added to it representatives of several of the leading labor bodies there.

Lathers of Chicago, Ill., have given notice to the contractors that they will insist on a 50-cent a day increase. They are now getting \$3.50 to \$4.00. They demand one scale for metallic lathing and will concede an appen-

teachship system if their wants are granted.

It is claimed that the action of the Chicago and Illinois judges in the injunction cases against the printers will force unions of this country into politics just as the Taft-Vale decision forced labor unions in England to go to the ballot.

## Always Keep Chamberlain's Cough Remedy in the House.

"We would not be without Chamberlain's Cough Remedy. It is kept on hand continually in our home," says W. W. Kearney, editor of the Independent, Lowry City, Mo. That is just what every family should do. When kept at hand for instant use, a cold may be checked at the outset and cured in much less time than after it has become settled in the system. This remedy is also without a peer for croup in children, and will prevent the attack as soon as the child becomes hoarse, or even after the croupy cough appears, which can only be done after the remedy is kept at hand. For sale by F. J. Ramsey, W. D. Frame, Ardmore Drug Co. and Bonner & Bonner.

## Lunatic at a Funeral.

Baltimore, March 25.—At Brooklyn, Anne Arundel county, just across the Patuxent river from this city, Walter Poole, an insane man 28 years of age, entering his brother's house just as friends and relatives were gathering to attend the funeral of the brother's little child, opened fire with a revolver set fire to the house and himself died from gunshot wounds. Nine persons were injured more or less seriously by his shots. Of these a brother, John P. Poole, and William H. Miller, a brother-in-law, are likely to die.

## WARNING ORDER.
